PREFERENCES UNFULFILLED.

OUR BIDS. OUR LIVES. OUR VOICE.

BEHIND EVERY BID IS A LIFE BEYOND WORK.

WHAT WE DEMAND

Real influence on roster planning
Bidding must have a meaningful and noticeable impact on roster planning to ensure genuine compatibility between work and personal life.

Transparency and accountability
Swiss must ensure transparency about how preferences are considered in roster planning and explain why they are or are not fulfilled.

Conditions that make bidding work
Staffing levels and operational planning must provide sufficient capacity and flexibility for bidding to be genuinely effective.

Our expectation
We call on Swiss management to work with kapers to establish a binding process and a concrete timeline for effective improvements.
